Replace Two Elevators  
AutoPark at Olde City Garage

RFP # 14-10.2**

The Philadelphia Parking Authority (“PPA”) is a public body politic created under the laws of the Commonwealth of Pennsylvania in accordance with the Act of June 19, 2001, P.L. 287, No. 22, as amended known as the “Parking Authority Law,” located at 701 Market Street Suite 5400, Philadelphia, PA 19106.

The mission of the PPA is to support the region’s economic vitality through the provision of comprehensive parking, regulatory and transportation services. A focus on improved access, greater mobility, and increased vehicular and pedestrian safety are the guiding principles of our programs.

The organization employs over 1,000 people working at various locations such as 701 Market Street (HQ), the Philadelphia International Airport, and various facilities located throughout the City of Philadelphia.

The PPA hereby solicits qualification statements and fee proposals from experienced mechanical / electrical engineering firms (the “Consultant”) for professional services including the inspection, evaluation, design, bid document preparation, and construction phase services for the replacement of two (2) elevators at the AutoPark at Olde City garage at 2nd & Sansom Streets in the City of Philadelphia, PA (the “Project”). The purpose of the Project is to replace the two (2) existing elevators. The source of funds for this project is the PPA’s capital improvements budget.

PPA procurement rules require the PPA to engage in a competitive process for the selection of a Consultant. Proposals received will be reviewed by a selection committee comprised of representatives from the appropriate operating divisions of PPA. The PPA anticipates that the design phase will be completed within 30 days of contract award, and construction be completed within three (3) months of the contractor’s notice to commence work.

## **1. Scope of Services**

The PPA operates a six level parking garage at 2<sup>nd</sup> & Sansom Streets in the City of Philadelphia. There are 615 parking spaces. The precast concrete structure was built in 1978 on land currently owned by the United States, Department of the Interior, National Park Service (“NPS”). The PPA has a 30 year lease from the NPS, which expires in 2039.

The parking garage is serviced by the two (2) originally installed Eastern Elevator Company elevators (Model # SCD 184 ZA 807 A 800). These elevators require frequent repairs.

The PPA anticipates that the selected Consultant will provide and shall be responsible for all necessary engineering design and related professional services for the Project, including but not limited to; inspection, evaluation, design, bid document preparation, permitting assistance, bid review, and construction phase services.

The Consultant shall first inspect the elevators in order to verify their condition and dimensions, and to identify any other related architectural, structural, or electrical repairs for inclusion in the construction scope of work.

The final work product shall include signed and sealed construction documents sufficient to obtain zoning and building permits to be issued by the City of Philadelphia Department of Licenses & Inspection (“L & I”). Consultant shall also prepare any other information required to obtain any other third party regulatory agency approval(s) required for construction. Consultant shall prepare an opinion of probable construction cost for submission with the preliminary design and with the final design.

Project deliverables shall include as a minimum, three sets of signed and sealed final drawings, project manual, and technical specifications, one (1) .pdf version of final drawing set, and one (1) .DWG file of final drawing set.

The Consultant shall assist the PPA with bid review and provide construction phase administration and observation services. The Consultant will be expected to review the contractor’s invoices against work progress, and to make written recommendations for construction progress payments.

The contract resulting from this RFP will commence as of the date of execution of the contract and will terminate upon completion of the work.

The Consultant’s fee shall be based upon a proposed lump sum fee.

The PPA will manage the work performed under this contract. The Deputy Executive Director, or his/her designee, will be responsible for overseeing the activities of the successful Consultant.
