The Philadelphia Parking Authority (“PPA”) is a public body politic created under the laws of the Commonwealth of Pennsylvania in accordance with the Act of June 19, 2001, P.L. 287, No. 22, as amended known as the “Parking Authority Law,” located at 701 Market Street Suite 5400, Philadelphia, PA 19106.

The mission of the PPA is to support the region’s economic vitality through the provision of comprehensive parking, regulatory and transportation services. A focus on improved access, greater mobility, and increased vehicular and pedestrian safety are the guiding principles of our programs.

The organization employs over 1,000 people working at various locations such as 701 Market Street (HQ), Philadelphia International Airport, and various facilities located throughout the City of Philadelphia.

The PPA hereby solicits qualification statements and fee proposals from experienced traffic engineering firms (the “Consultant”) for professional services for a study of the shuttle bus service to the Economy Lot at the Philadelphia International Airport in the City of Philadelphia, PA (the “Project”). The purpose of the Project is that the PPA wishes to evaluate the existing shuttle bus service operation to the Economy Lot for the purpose of making changes to the service contract which will result in improvements to the service. The source of funds for this project is the PPA’s capital improvements budget.

PPA procurement rules require the PPA to engage in a competitive process for the selection of a Consultant. Proposals received will be reviewed by a selection committee comprised of representatives from the appropriate operating divisions of PPA. The PPA anticipates that the data collection and evaluation phase will be completed within 30 days of contract award, that the preliminary study report will be completed within 30 days after that, and the final report will be completed within 30 days of the preliminary review.

1. Scope of Services

Refer to Exhibit B - Project Description for more detail about proposer qualification requirements, Scope of Services, and anticipated study phases.

The PPA anticipates that the selected Consultant will provide and shall be responsible for all necessary traffic engineering and related professional services for the project.

Consultant shall prepare an opinion of probable implementation costs, for submission with the preliminary report, and with the final report.

Project deliverables shall include as a minimum, ten sets of the signed and sealed final report, one (1) .pdf version of final report, and one (1) .DOC file of final report.

The Consultant’s fee shall be based upon a proposed lump sum fee.

The PPA will manage the work performed under this contract. The Deputy Executive Director, or his/her designee, will be responsible for overseeing the activities of the successful Consultant.
