The Authority shall not be bound by any verbal information nor shall it be bound by any written information that is not either contained within the RFP or formally issued as an addendum by the Authority. The Authority does not consider questions to be a protest of the specifications or of the solicitation.

3. Proposal Conditions:

Sealed proposals must be received in the office of the Philadelphia Parking Authority, 701 Market Street, Suite 5400, Philadelphia, PA 19106, by 11:00 AM on Thursday, January 15, 2015, as more fully described in the Specifications attached hereto. Each proposer shall submit to the Authority the information and forms required, which forms and information shall become the property of the Authority and will not be returned to proposers, unless a written request to withdraw is received prior to the opening of proposals.

4. Signatures Required:

The proposals *must* be signed in ink in all spaces where signatures are required. In cases of corporation, the signature must be that of a duly authorized officer of the corporation and officer's title must be stated. - Tab C- Proposal Security
- Tab D- Financial Statement
- Tab E- Insurance Requirements
- Tab F- Proposal Form

- Tab I- Unacceptable Contract Terms

6. Proposal Qualifications:

Proposals must present evidence satisfactory to the Authority that they are fully competent to perform the conditions of the Contract. Proposers must have the necessary facilities, equipment, experience, and financial capacity to fulfill the conditions of the Contract and all the terms and specifications included herein.

To provide the Authority with information as to their ability to perform, proposers must submit, as part of this proposal, information stipulated in the Proposal Qualification Form (Proposal Form, Section 12) attached hereto and proof of ability to furnish the item as outlined in the specifications.

All prices set forth in proposals received by the Authority shall remain firm and proposers shall not be allowed to change or alter the prices set forth in their proposals for the duration of the contract period. If the Authority selects the proposer's proposal, the non-conflicting contents of the selected proposal will become contractual obligations upon execution of the contract.

The Authority has identified the basic approach to meeting its requirements, allowing proposers to be creative and propose their best solution to meeting these requirements.

7. Proposing Equivalent Products:

If and whenever in the specifications a brand name, make, name of manufacturer, trade name, or vendor catalog number is mentioned, it is for the purpose of establishing a grade or quality of material only. Since the Authority does not wish to rule out other competition and equal brands or makes, the phrase "or approved equal" is added. However, if a product other than that specified is proposed, it is the proposer's responsibility to identify such a product within the proposal, and to prove to the Authority that said product is equal to that specified, including but not limited to submitting brochures, samples, and/or other specifications in detail on the item(s) proposed. Approval of any proposals submitted shall be at the sole discretion of the Authority.

8. Executed Contract Required:

Notwithstanding completed review and submission of all Request for Proposal and Response documents, and regardless of any formal or informal public or private statements emanating from any official of the Authority or the Proposer, including any notice of "contract award" from the Authority, the Authority will not be legally bound to any contract for the provision of barrier gates or be subject to any other liability whatsoever on any legal theory concerning the provision of barrier gates until a final document evidencing the complete and exclusive contract of the parties is signed by the Authority's Executive Director and the duly authorized representative of the Proposer.

9. Rejection or Acceptance of Proposals:

An Evaluation Committee comprised of Authority personnel will review all proposals and select the most responsible proposer(s). Upon the conclusion of their review, the most responsible proposer(s) will be selected to execute the contract. The Authority may, at its sole discretion, select more than one proposer to execute a contract. After execution of the contract by the proposer(s), the Committee will make a recommendation to the Authority's Board of the most responsible proposer(s) with the highest quality and best terms. In qualifying a proposer as responsible, the Authority will consider the proposer's ability to meet the requirements, terms and conditions of the RFP. Proposers will be evaluated on factors including, but not limited to, the proposer's work experience, staffing level and experience, responsiveness, quality and timeliness of past performance with the Authority as well as others, financial capability, reliability, responsibility, compliance with equal employment requirements and anti-discrimination provisions, compliance with wage, hour and other fair labor standards, and integrity of the firm and its key people.

The Authority reserves the right to waive any irregularities in the completion of the forms and papers enclosed in this schedule; to accept or reject any or all proposals; to re-advertise for proposals if desired, and to accept the proposal which, in the judgment of the Authority, will be in the Authority's best interest. The Authority reserves the right to reject any or all alternates if desired, and to accept the combination of base proposals and alternates, which in the sole judgment of the Authority, will be in the Authority's best interest.

Any form which is required to be submitted and which is incomplete, conditional, obscure, contains additions not called for and not approved by the Authority, or which contains irregularities of any kind, may be cause for rejection of the proposal. In the event of default by a successful proposer, or the proposers' refusal to enter into the Contract with the Authority, the Authority hereby reserves the right to re-bid the Contract or to accept the proposal of the next most responsible proposer at the Authority's sole option.

At any time up to the hour and date set for opening of proposals, a proposer may withdraw its proposal. Such withdrawal must be in writing and sent to the Authority at the address set forth herein by certified mail, return receipt requested, or delivered in person. Such withdrawal shall be effective only upon receipt by the Authority and will not preclude the submission of another proposal by such proposer prior to the hour and date set for the opening of proposals. After scheduled time for opening of proposals, no proposer will be permitted to withdraw their proposal, and each proposer hereby agrees that their proposal shall remain firm for the contract period. A proposal made and opened may be withdrawn with the written permission of the Authority, if in the Authority's opinion, the proposal is inconsistent with the best interest of the Authority.

10. Unacceptable Proposals:

No proposal will be accepted from or selection made of any person, firm or corporation that is in arrears or in default to the Authority upon any debt or contract, or whose insurer or banking institution is in default as surety or otherwise upon any obligation to the Authority, or has failed in the sole opinion of the Authority to faithfully perform any previous contract with the Authority.

11. Clarification of Instructions:

Should the prospective proposer find a discrepancy in or an omission from the Specifications or Instructions to Proposers, or should she or he be in doubt as to the meaning of any term contained therein, the proposer shall notify Mary Wheeler, Manager of Contract Administration at 215-683-9665, who will clarify any discrepancies by sending written instructions to all proposers.

12. Restriction of Contact:

From the issue date of this RFP until the Authority's Board approves the negotiated contract, Mary Wheeler is the sole point of contact concerning this RFP. Any violation of this condition may be cause for the Authority to reject the offending proposer's proposal. If the Authority later discovers that the proposer has engaged in any violations of this condition, the Authority may reject the offending proposer's proposal or rescind its award. Proposers must agree not to distribute any part of their proposals beyond the Authority. A proposer who shares information contained in its proposal with other Authority personnel and/or competing proposer personnel may be disqualified.

13. Notification of Proposer Selection:

The Authority will study and evaluate all proposals which are received in accordance with the instructions set forth in the proposal package and may select a proposer or multiple proposers and notify all other proposers of the selection within one hundred and twenty (120) days after the date the proposals are opened. Such notice shall be in writing and mailed to the address furnished by each respective proposer. The selected proposer(s) shall not start the performance of any work prior to the Effective Date of the contract and the Authority shall not be liable to pay the selected proposer for any service or work performed or expenses incurred before the Effective Date of the contract.

14. Financial Statement:

Financial statements for the last three (3) years, examined by an independent Certified Public Accountant who is not an employee of the proposer must be enclosed with the proposal.

15. MBE/WBE/DBE/DSE Participation:

The Philadelphia Parking Authority strongly encourages the meaningful and substantial participation of Disadvantaged Minority Business Enterprises ("M-DBE"), Disadvantaged Women Business Enterprises ("W-DBE") and Disadvantaged Disabled Business Enterprises ("DS-DBE") but not limited to; Design, Construction, Operations Management, etc.

While there are no Participation Ranges projected for this Proposal, proposers are prohibited from discriminating in their selection of subcontractors and are encouraged to solicit quotes from businesses, when applicable, on an equitable basis with other firms.

16. General Warranty:

Neither the final Certificate of Payment nor any provision in the contract included within the scope of the contract shall constitute an acceptance of work not done in accordance with the contract or relieve the proposer of liability in respect to any expressed warranties or responsibility for faulty materials or workmanship.

The vendor must include in its Proposal, a description of all warranty provisions and preventive maintenance operations proposed for this Request for Proposal.

17. Contract Period:

20. Business Licenses:

The selected proposer must apply for and obtain, prior to execution of the Final Contract document and at the Proposer's sole expense, any business license required to comply with the applicable law as related to the scope of work detailed in this RFP.

21. Evaluation of the Proposal:

An Evaluation Committee consisting of Authority staff and legal counsel to the Authority will have sole responsibility for reviewing and evaluating all proposals submitted in response to the RFP. The Evaluation Committee will assess the qualifications of the vendor, the vendor's ability fulfill the terms of the contract within the specified time line, the vendor's ability to meet the specifications, and the price proposed by the vendor. The Evaluation Committee will utilize the following rating system to evaluate all proposals submitted: 0= does not meet the requirements, 1= marginally meets the requirements, 2= fully meets the requirements, 3 = exceeds the requirements. Based on these ratings, a composite rating will be determined for each proposal ("Rating"). While the Rating will be used by the Authority in the selection process, the award of the contract will be at the sole discretion of the Authority.

22. Submitting Samples:

The Philadelphia Parking Authority will require that one (1) complete automatic barrier gate assembly be shipped by the successful proposer as to ensure that the equipment is the correct type, color, etc., and functions properly. **REQUEST FOR PROPOSALS BARRIER GATES AT THE PHILADELPHIA INTERNATIONAL AIRPORT
PROPOSAL NO. 14-16**

SPECIFICATIONS

In this Request for Proposal (RFP), the Authority is interested in receiving proposals for the purchase and installation of fifty-nine (59) revenue control system barrier gates with fifty-eight (58) 10 ft. gate arms and one (1) articulating 10 ft. gate arm, for its public parking facilities at Philadelphia International Airport. The primary function of the automatic barrier gate is to provide vehicular traffic control.

The specific gate model required is the Magnetic Microdrive Parking.Pro (part number RC01040), color RAL 1023 Traffic Yellow. The gate must integrate with the existing parking revenue control system (PRCS) in the Authority's public parking facilities at Philadelphia International Airport (PHL).

A qualified PHL approved licensed electrician (listed below) must be utilized for power removal and hook up. It is the responsibility of the vendor to obtain all necessary permits for the electrical work. Xerox, the Authority's PRCS service and maintenance provider at PHL, will be assisting and providing oversight in all phases of the installation through the decommissioning of the existing gates to the commissioning of the new gates.

The vendor must supply a storage container to receive and secure the shipment of the gates and all other necessary materials. The Authority will provide a garage ground level covered area for the container to be housed.

The number of loop detectors for the current PRCS system is unique. The gate must have three loop detectors. The detectors must be configurable for A, B, and C (C is the closing/safety detector). Accordingly, all bidders are required to provide the extra loop detector module from Magnetic (part no. MMD-DM02).

Please see the specifications for the Parking.Pro barrier gate and the gate replacement scope of work. The Philadelphia Parking Authority will require that one (1) complete automatic barrier gate assembly be shipped and installed by the successful bidder so as to ensure that the equipment is the correct type, color, etc., and functions properly. This will allow the successful bidder to make any necessary order adjustments with the manufacturer before shipment of the remaining fifty-eight (58) automatic barrier gates.

The barrier gates must meet all specifications provided in this RFP, including the following listed below:
